SAFETY

# LEADING THE WAY IN INNOVATION

A SELECTION OF RECENTLY LAUNCHED  
PRODUCTS. HELPING TO BRING WORKERS  
AT HEIGHT HOME SAFELY EVERYDAY.

GLOBAL LEADER  
IN FALL PROTECTION

# CAPITAL SAFETY

Capital Safety is the world leader in fall protection equipment, systems and anchors.

For more than 70 years we have earned the trust of companies and people around the world by putting all of our energy and all of our technical expertise into achieving one precious goal; *to bring every worker at height home safely.*

## DRIVEN TO EXCEED OUR CUSTOMERS' EXPECTATIONS:

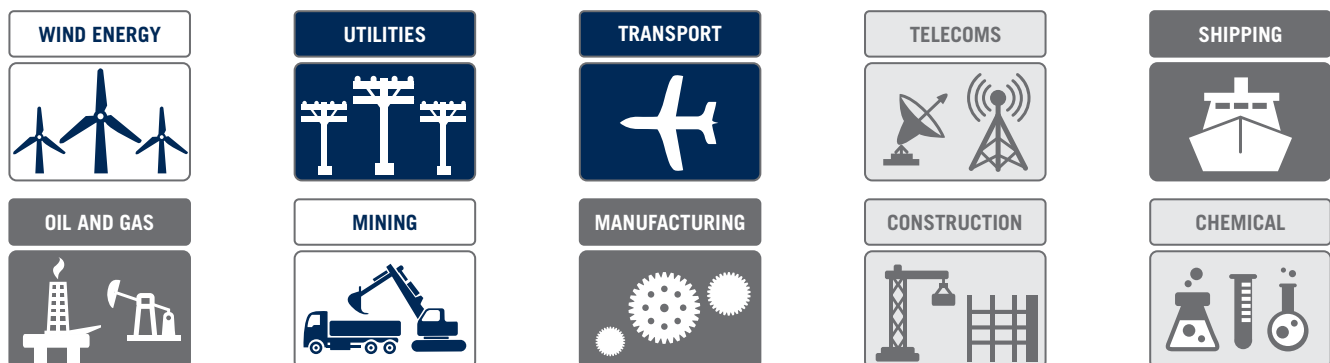

### INNOVATIONS THAT KEEP PEOPLE SAFE:

- Harnesses
- Lanyards
- Self-Retracting Lifelines
- Engineered Systems & Anchors
- Confined Space
- Rescue & Descent Systems

### COMPREHENSIVE TRAINING PROGRAMMES:

- Courses at our state of the art training centres around the world
- On-site training customised to customer facility
- Best in class service and technical support
- Collaboration with compliance entities, industry organisations, customers and their workers
- Emphasis on quality, functionality, reliability and innovations

### OUR SECTORS:

Capital Safety comprises two global brands for height safety; DBI-SALA® and PROTECTA®.

## THE ULTIMATE IN FALL PROTECTION.

DBI-SALA® embodies a commitment to excellence and innovation with its extensive range of fall protection solutions, designed to keep you working at height; safely, efficiently, comfortably.

The ultimate in fall protection for any work environment.

## TRUSTED, QUALITY FALL PROTECTION.

With over 50 years experience, Protecta® provides the complete line of fall protection products you can rely on, at exceptional value.

# ABCs OF FALL PROTECTION

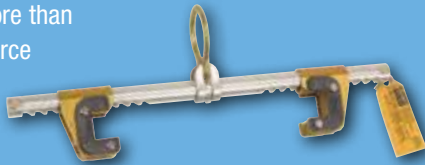

**A typical Personal Fall Arrest System (PFAS) incorporates three components often described as the ABCs of fall protection.**

The anchorage/anchorage connector, body support and connecting device, when used together, form a complete system for maximum worker protection.

But don't forget about another required component of any fall protection program - the descent, rescue and retrieval of a fallen worker.

## A ANCHORAGES

Anchorage are a secure point of attachment. Anchorage connectors vary by industry, job, type of installation and structure. They must be able to hold fast under more than a minimum force of 12kN.

## B BODY SUPPORT

Harnesses distribute fall forces over the upper thighs, pelvis, chest and shoulders. They provide a connection point on the worker for the personal fall protection system.

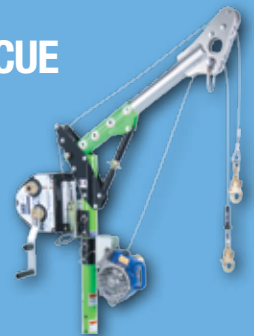

## C CONNECTORS

Connectors elements such as shock absorbing lanyards or self retracting lifelines connect a worker's harness to the anchorage.

## D DESCENT AND RESCUE

Descent and rescue devices are used to retrieve an injured worker or lower them to the ground.

## SAFETY DEMONSTRATIONS

### WE CAN COME TO YOU

Our extensive fleet of demo vans can provide you with on-site demonstrations of our products and deliver fall protection awareness workshops

To book a demo van contact customer services on:

# NEW PRODUCT INNOVATIONS

**Each year Capital Safety launch more products that anyone else in the industry.**

On the following pages you can find a selection of just some of the innovative products we've launched recently. For full details of the models available in each range, visit our website or contact our Customer Services team.

## DBI-SALA® NANO-LOK™ XL 3101614

**NEW Nano-Lok™ XL providing up to 33% more lifeline to the user. The additional length increases the anchorage options for the user and further establishes Nano-Lok™ as the most versatile personal SRL on the market.**

- Single leg and twin leg option
- Can be connected at foot level
- 2.7 m to 3.3 m length models available
- 10 different models with different carabiner and snap hooks
- The most compact 3 m unit on the market

## DBI-SALA® NANO-LOK™ HOT WORK SRL 3101521

**The first ever self retracting lifeline designed for welding, grinding and high heat applications**

**DURABLE** - Reinforced webbing with Nomex®/Kevlar® fiber to withstand sparks, weld splatter and other high heat exposure.

**VERSATILE** - 5 different Nano-Lok™ configurations, single and twin-leg, that can be connected at foot level to meet your specific needs.

**SAFE** - Arc flashed to 8 calories (8cal/cm<sup>2</sup>), for hot work use in applications like welding, grinding and torching. Meets or exceeds industry standards. CE EN360:2002.

# NEW PRODUCT INNOVATIONS

## DBI-SALA® NANO-LOK™ EDGE 3500242

**Unique technology makes Nano-Lok™ Edge the world's only extreme zero radius edge rated SRL**

- Dedicated foot level tie-off design minimises fall forces, auto-retraction of unused lifeline minimises trip hazards
- Integrated back pack style energy absorber
- Easy-fit connector, 360° rotation
- Multiple hook options
- Cable or web

## DBI-SALA® 53M LONGER LENGTH SEALED-BLOK™ 3400656

**Trusted. Durable. Reliable. SRL with field proven technology**

- **NEW** 53 m longer length
- Aluminium housing
- Anti-ratcheting design
- 140 kg weight capacity
- New sealed design

## DBI-SALA® CYNCH-LOK™ POSITIONING LANYARD 1204054

**Cynch-Lok™ gets you there faster and safer**

- Pinch free, ergonomic grips
- Stopping cleat and carabiner
- Indicating strap and rope

# NEW PRODUCT INNOVATIONS

## DBI-SALA® EXOFIT NEX™ SUSPENSION HARNESS WITH CHEST ASCENDER 1114027

ExoFit NEX™ harnesses incorporate the most advanced technologies in the world. The versatile, multi-use suspension harness is ideal for rescue, rope access and rigging and is now available with an ultra-compact chest ascender.

- Front and rear fall arrest points, and work positioning belt
- Adjustable shoulders, waist and legs
- Quick connect buckles on legs and shoulder
- Supplied fitted with removable ultra compact chest ascender

## DBI-SALA® EXOFIT NEX™ OIL & GAS HARNESS 1114017

The premium harness with features built for the rig

- Reflective material
- Revolver™ vertical torso adjusters
- belly board attachment points
- Integrated trauma straps
- Seat with lifting D-rings
- Shoulder connectors allow for a separate belly board belt to be attached to the harness for positioning while performing pipe work

# NEW PRODUCT INNOVATIONS

## DBI-SALA® SHOCK ABSORBING TIE-BACK LANYARDS 1245556

### Smaller, lighter, stronger

- New shock pack smaller and lighter. Rated to 130 kg max. User weight
- i-Safe™ each Product can be Tracked for Inspection Purposes
- Revolutionary new Hi-10™ energy absorbing body connector

## DBI-SALA® ROOFTOP FREESTANDING COUNTERWEIGHT ANCHOR 2100180

### Safe and versatile

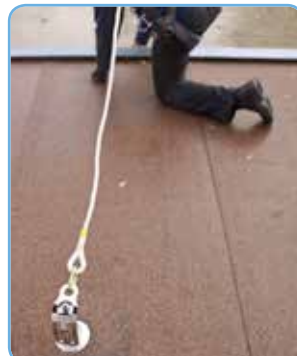

- Does not require attachment to a working surface
- Provides a safe and versatile fall arrest rated tie-off point for one user
- Lifting Kit allows the entire anchor to be easily moved

## DBI-SALA® ROOFSAFE™ ZORBA™ TECH ANCHOR 7241284

### Ultimate protection for both user and roof structure

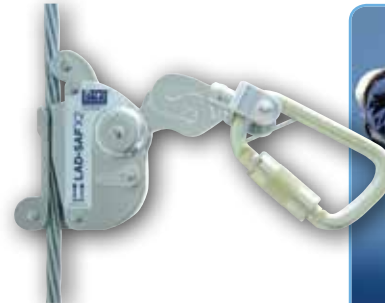

- A single fixing anchor for concrete roofs with an innovative energy absorber
- Ultimate protection for both user and roof structure
- Quick and easy to install
- Available in 3 sizes to suit different heights of insulation. Suitable for warm and cold roofs

## DBI-SALA® LAD-SAF™ X2 DETACHABLE CABLE TRAVELLER 6160030

### Security and confidence at height

- Easy to install and detach from cable
- Primary & secondary locking systems
- Integrated energy absorber/fall indicator
- Compact & corrosion resistant

# NEW PRODUCT INNOVATIONS

## PROTECTA® PRO™ WELDERS HARNESS

AB10213K

**Heat resistant & durable.  
For safe welding at height**

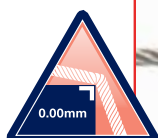

- 5 points of adjustment
- Modacrylic Kevlar™ webbing
- Pass through steel buckles
- Simple, safe torso adjusters
- Large rear D-ring

## PROTECTA® REBEL™ 6 M LEADING EDGE 3590542

**NEW 6 m Leading Edge model with all the Rebel™ features and benefits you already trust**

- The only SRL that complies to extreme sharp edge (vg11 .054 Type b, 0 mm radius)
- Users are now able to tie-off at foot level with the 6 m leading edge Rebel™ without requiring to connect the sharp edge extension sling
- Thermoplastic housing
- Wire rope
- Energy absorber

## PROTECTA® REBEL™ WEB 2 M SRL 3100419

**Still using a lanyard?  
The Rebel™ 2 m web SRL is the perfect way to upgrade!**

- Single and twin-leg versions
- Can be connected from shoulder level
- Reduced fall arrest distance versus a lanyard

# NEW PRODUCT INNOVATIONS

## PROTECTA® REBEL™ 15 M RETRIEVAL 3591002/3591003

### Compliance and rescue all-in-one

- 15 m self-retracting lifeline with rescue winch
- Brackets available for easy tripod integration
- Designed for confined space applications

## PROTECTA® PRO™ NEXT GENERATION HARNESSSES AB101NG

### For many years the Pro™ harness range has brought workers home safely, whatever their job

- New spring loaded torso adjusters
- Improved webbing management
- More padding options
- Optimum position chest strap

# PRODUCT OVERVIEW

## HARNESSES

The industry's most comprehensive range with over 500 products.

A range of harnesses with unique and patented features.

Full customisation service.

## VERTICAL SYSTEMS

Capital Safety offers the industry's premier vertical systems providing added safety, climbing mobility and productivity. Choose from a variety of ladder safety equipment and harnesses as well as vertical lifelines.

## LANYARDS

Wide selection of over 180 lanyards covering fall arrest, work positioning and restraint.

Full customisation service; tailoring to your exact needs.

Industry leading shock-absorbing technology.

## ANCHORAGE SYSTEMS

More than 300 anchors to suit a variety of applications including:

Anchors for fixed and mobile requirements, permanent and temporary applications, and harsh environments.

## SELF-RETRACTING LIFELINES (SRLs)

A range of over 300 SRLs.

Extensive offering from 2m-60m in length.

Our innovations include the world's first retractable life line, first sealed SRL, RSQ™ dual mode SRL, 3-way SRL with built in retrieval and the fall impact indicator.

## CONFINED SPACE ACCESS

Modular safety solutions for difficult applications.

Unique product range.

Lightweight design, easy to transport and install.

## HORIZONTAL LIFELINE SYSTEMS

### TEMPORARY

A variety of lightweight easy to install systems.

Cable, rope and webbing options to suit a wide variety of applications and environments.

### PERMANENT

Range of horizontal lifeline systems both cable and rail.

Thousands of configurations to suit virtually any application requirement.

## RESCUE AND DECENT SYSTEMS

Wide range of evacuators and descenders.

Rescue solutions for virtually any application ranging from wind tower evacuation to fire brigades and technical rescue.

## #1 LEADER IN FALL PROTECTION, CAPITAL SAFETY

### SAFETY AWARENESS & COMPLIANCE

**13,600** People Trained Every Year on Safety At Height and Fall Protection

**5** World Class Training Centres Located in Germany, France & UK

**3000+** Training Sessions Delivered Each Year with **190** Training Courses Available

**35,000+** Workers-At-Height Receiving Safety Demonstrations Annually

**11** Safety Awareness Demonstration Vans

**€1 Million** Invested Into Demonstration Vehicles

### SERVICE EXCELLENCE

**8** Sales & Customer Service Centres Providing Daily Support To Our Customers

**3** Dedicated Distribution Centres

We Deliver Products to **84** Countries

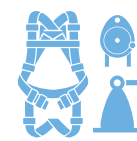

Year Average Technical/Support Team Experience

**100+** Approved Service & Repair Centres

### CATEGORY LEADERSHIP

**70+** Years of Expertise in Fall Protection

**12,000+** Available Product SKU's

**ISO9001** Quality Assurance: ISO 9001 2008 Certified

**230+** Highly Skilled Industry and Product Experts

**30+** Sales Representatives Focused Solely On Fall Protection Solutions

### PRODUCT EXCELLENCE

**1000+** Items Available For Same Day Prime Shipping

**2** World Class Manufacturing Sites

**300+** Active Patents We Have Pioneered

Full Customisation Options For Specific Applications

## GLOBAL LEADER IN FALL PROTECTION

### Capital Safety is the Global leader in fall protection equipment, systems and anchors.

Capital Safety est le leader mondial en matière d'équipement, de systèmes et d'ancrages de protections antichute.

Capital Safety ist weltweit führend auf dem Gebiet von Absturzsicherungs-ausrüstung, -systemen und Anschlagmöglichkeiten.

Capital Safety es el líder mundial en equipos, sistemas y anclajes de protección contra caídas.

Capital Safety is wereldleider in valbeveiligingsapparatuur, -systemen en verankeringen.

Capital Safety è leader globale nell'anticaduta per dispositivi di protezione individuale, sistemi e ancoraggi.

Capital Safety är globala inom utrustning, system och förankringar för fallskydd.
